

Fruits LowPoly Pack Lite by ResilientLogicGames

-----

email: resilientlogic@gmail.com

Current version: v1.0 in January 2024

Description: 3d Low poly models of various types of fruits. You can use these for your games right after importing the asset.

Content:

- apple
- pear
- banana
- pineapple
- orange

Future develop:

If these prove popular, we will create further models to be added to this set

Thank you!

All assets ready to be used. Enjoy!
